

This is a short paragraph.

This is another one.

And this is another one.

$$\sum_{i=0}^n i \text{ (some display math)}$$

Math display above.

This is after a vfill.

This is a longer paragraph to test what happens $\int_0^\infty x dx$ when we have line breaks. The baselines should still align $\int_0^\infty x dx$. We make it three lines to test what is happening with `pre box`, whose wrong processing was throwing this paragraph's baseline off.
